

SHINAGAWA

Shinagawa Refractories enters into a Know-How License Agreement with
Anshan Hefeng Refractory Material of China
August 3, 2022 Press Release

Shinagawa Refractories (Shinagawa), the leading global supplier of refractory solutions, announces that it has signed, on July 1, 2022, a Know-How License Agreement for continuous casting refractory products and services with Anshan Hefeng Refractory Material (Hefeng), one of the most prestigious and well-respected refractory producers in China.

Shinagawa and Hefeng jointly established a mold powders JV, Liaoning Shinagawa Hefeng Metallurgical Material in 2008. Through the JV, Shinagawa and Hefeng have achieved a predominant market share as spray-dried mold powders for major steel producers in China.

“Shinagawa is fully committed to supporting essential industries worldwide, and this Agreement with Hefeng accelerates further enhancement of our proximity for customers in China. This Agreement is particularly targeted at the world’s largest steel producing country, and, more than ever, Shinagawa is ready to serve all the needs of refractory solution for high quality steel,” commented Masayuki Negishi, Division Manager of Shinagawa Overseas Business Planning.
